DAY 1

Dr Rangi Matamua

Dr Rangi Matamua is a pioneering Māori scholar who has revolutionised understandings of Māori astronomy, and in particular Matariki. His research has been ground-breaking in terms of its contribution to mātauranga Māori; he has enlightened both national and international populations on the mātauranga of astronomy.

Dr Eruera Tarena

Dr Eruera Tarena is the Executive Director of Tokona te Raki: Māori Futures Collective, an indigenous design and innovation lab based under the mana of Ngāi Tahu. Their purpose is to provide next-gen solutions powered by rangatahi Māori. They employ, train and support rangatahi through an apprenticeship in changing the world, equipping them with future-focused skills, and honing them through real-world projects.

DAY 2

Jase Te Patu

Jase Te Patu is a TEDx speaker, Edmund Hillary Fellow, and an award-winning facilitator of yoga and mindfulness. He has 30 years' worth of experience teaching in the wellbeing industry. Jase is co-owner of Awhi Yoga and Wellbeing and Founder of M3 Mindfulness for children.

Dr Karlo Mila

Dr Karlo Mila (MNZM) is a writer, researcher, poet, seeker, mother and the creator of Mana Moana. Of Tongan, Samoan and Pākehā descent, her life's work has been centred around the lived experiences of Pacific peoples. She currently runs a leadership program that takes a year-long deep dive into the shared language, epistemology and ancestral wisdom of the Moana, prototyping these in practical ways in professional and personal contexts.
